

nowa szkoła

space for education

nowa szkoła offers a wide variety of products for schools and preschools, including furniture, educational materials, rehabilitation and sports equipment.

The company, established in Poland in 1992, currently employs 150 staff in several departments, such as Development and Design, Carpentry, Upholstery. This enables us to perfect every detail and ensures flexibility and swift reaction to our customers' requirements and suggestions.

We export our products to a great number of countries all over the world. Together we can accomplish more. The holding hands in our logo symbolize our belief that full development of a child depends on harmonious relations between parents, teachers, and the environment, which our products change into an aesthetic, functional and inspiring space.

*Year 2012 is for us – as all the years before – exceptional, so many interesting moments and challenges are still before us; well perhaps it's also time to stop in this headlong rush and look back for a moment because **nowa szkoła** is celebrating already this year, its 20th anniversary.*

None of us has felt the passage of time probably because we have always been so passionately involved in what we are doing.

*The cover of our catalogue 2012 may seem unusual for a company specializing in educational materials and early learning. It is our way of illustrating this past 20 years : three young people – beautiful – like in our logo – two boys and one girl – full of expectations – employees of **nowa szkoła** – working towards a common goal... who would remember that 20 years ago, in 1992, they were making their first steps in learning at preschool ?*

We are happy to share this picture with you. Isn't it the best reward for us who are dedicating our lives to education ?

nowa szkoła

TÜV Rheinland®

TÜV Rheinland Group is a leading global provider of technical and certification services. Founded in 1872 in Cologne, Germany, it currently employs nearly 14000 people in 61 countries. Its mission is to strive for sustainable safety development and high quality of products and services in order to meet challenges arising from the interaction between man, technology and the environment. TÜV Rheinland Poland means Polish specialists and global solutions for quality and safety.

Starting as a team of several specialists implementing TÜV standards and quality management systems, TÜV Rheinland Poland has now become a thriving enterprise with over 100 people in 11 regional offices. This dynamic and sustained growth, hardly possible without the support of the parent company, depends nevertheless mainly on the Polish team of highly qualified auditors and experts in all industries.

The activity of TÜV Rheinland Poland focuses on three areas: certification of systems, security and quality of products, and services for industry. This means in practice that the distinctive blue triangle of TÜV Rheinland Group can be found in certificates for management systems in companies of any size, but also on pieces of furniture, railway products or food articles. The mark guarantees the highest quality of services and products and it builds up the trust of end users.

For TÜV Rheinland Poland clients are the main source of information necessary for setting new service directions. This is why a few years ago Testing Laboratory TÜV Rheinland Poland was created which was accredited to Polish Centre for Accreditation and which comprises the Mechanical Laboratory. The accreditation (under no. 141) allows the Laboratory to certify compliance with Polish Standard. The fact that the TÜV Rheinland Poland quality mark is universally recognized and respected explains why Nowa Szkota has applied for furniture certification from this unit.

We are pleased to announce that we have already received first certificates and that the certification process is and will be continued with a view to achieving absolute certainty regarding the quality and safety of our products, all to the satisfaction of our customers.

Akademia Sztuk Pięknych
im. Władysława Strzemińskiego w Łodzi

Product design by students from the New Product Development Studio at Strzeminski Academy of Art. Supervisor: Assoc. Prof. Krzysztof Chróścielewski.

The project has been based on a study of behaviour and preferences of preschool children and their carers at day-care centres. The questionnaires used have revealed needs and expectations of each group and have been an inspiration for innovative solutions. The outcome has been several lines of furniture with an interesting design and enhanced functionality.

Assoc. Prof. Krzysztof Chróścielewski
Head of Chair of Design
Faculty of Industrial Design and Interior Design
Strzeminski Academy of Art, Łódź

CLASSICAL

A proven and recognized line of furniture. It is very functional and allows unlimited combinations of colour arrangements, as well as a large display area. The containers, drawers and boxes help children to sort their school utensils and keep them tidy. Arrangement of a safe and comfortable interior is easier thanks to the wide variety of units and accessories.

Colour – beech

Self – assembly

Five heights: 54, 74, 93, 112, 131 cm

Types of units available

- with trays
- with shelves
- with trays and containers
- with shelves and containers
- with shelves and trays
- with shelves + trays and containers
- with compartments
- with compartments and containers
- corner and inside corner
- tall storage units
- bookcases

Decorative boards

The colourful boards will enliven every nursery classroom. The variety of colours and shapes stimulates children's imagination and encourages them to play on the surface of the furniture.

Extras (sold separately)

- doors
 - decorative boards
 - containers
 - shallow and deep wooden trays – 4 colours
 - shallow and deep cardboard trays – 4 colours
 - EKO shallow and deep cardboard trays
- For trays – only we recommend NS 0716 runners.
The arrangements shown are only examples.

Thanks to their construction, cardboard trays hold a weight of up to 42 kgs, while remaining light and safe for children.

Cardboard and wooden trays, which come in various colours, are aesthetic and very durable. Their dimensions fit the Classical series.

furniture

tables and chairs

chairs – butterflies

Light, colourful chairs made of plastic. The shape of the chair (flexible back, hole between the back and profiled seat) and the properties of the material help to improve child's posture and keep the spine in proper position. The chair colour scheme changes every interior into a fairytale land. The chairs are easy to move and storage – they are stackable, which saves space.
