

TÜV Rheinland®

TÜV Rheinland Group is a leading global provider of technical and certification services. Founded in 1872 in Cologne, Germany, it currently employs nearly 14000 people in 61 countries. Its mission is to strive for sustainable safety development and high quality of products and services in order to meet challenges arising from the interaction between man, technology and the environment. TÜV Rheinland Poland means Polish specialists and global solutions for quality and safety.

Starting as a team of several specialists implementing TÜV standards and quality management systems, TÜV Rheinland Poland has now become a thriving enterprise with over 100 people in 11 regional offices. This dynamic and sustained growth, hardly possible without the support of the parent company, depends nevertheless mainly on the Polish team of highly qualified auditors and experts in all industries.

The activity of TÜV Rheinland Poland focuses on three areas: certification of systems, security and quality of products, and services for industry. This means in practice that the distinctive blue triangle of TÜV Rheinland Group can be found in certificates for management systems in companies of any size, but also on pieces of furniture, railway products or food articles. The mark guarantees the highest quality of services and products and it builds up the trust of end users.

For TÜV Rheinland Poland clients are the main source of information necessary for setting new service directions. This is why a few years ago Testing Laboratory TÜV Rheinland Poland was created which was accredited to Polish Centre for Accreditation and which comprises the Mechanical Laboratory. The accreditation (under no. 141) allows the Laboratory to certify compliance with Polish Standard. The fact that the TÜV Rheinland Poland quality mark is universally recognized and respected explains why Nowa Szkola has applied for furniture certification from this unit.

We are pleased to announce that we have already received first certificates and that the certification process is and will be continued with a view to achieving absolute certainty regarding the quality and safety of our products, all to the satisfaction of our customers.

Akademia Sztuk Pięknych
im. Władysława Strzemińskiego w Łodzi

Product design by students from the
New Product Development Studio at
Strzemiński Academy of Art. Supervisor:
Assoc. Prof. Krzysztof Chróścielewski.

*The project has been based on a study of
behaviour and preferences of preschool
children and their carers at day-care
centres. The questionnaires used have
revealed needs and expectations of each
group and have been an inspiration
for innovative solutions. The outcome
has been several lines of furniture with
an interesting design and enhanced
functionality.*

Assoc. Prof. Krzysztof Chróścielewski
Head of Chair of Design
Faculty of Industrial Design and Interior Design
Strzemiński Academy of Art, Łódź

TRAIN

Train. A chain of storage units imitating a train (engine + carriages). Its length is limited only by the size of the room. The fancy shapes and multicoloured finish turn the room into a fantasy world. A very functional set which provides a lot of space for display and storage. The cupboards are white laminate. The doors, drawers applications in delicate pastel colours add liveliness to the whole interior.

CLASSICAL

A proven and recognized line of furniture. It is very functional and allows unlimited combinations of colour arrangements, as well as a large display area. The containers, drawers and boxes help children to sort their school utensils and keep them tidy. Arrangement of a safe and comfortable interior is easier thanks to the wide variety of units and accessories.

Self , assembly.

Five heights: 54, 74, 93, 112, 131 cm.

Types of units available:

- with trays,
- with shelves,
- with trays and containers,
- with shelves and containers,
- with shelves and trays,
- with shelves + trays and containers,
- with compartments,
- with compartments and containers,
- corner and inside corner,
- tall storage units,
- bookcases.

Decorative boards.

The colourful boards will enliven every nursery classroom. The variety of colours and shapes stimulates children's imagination and encourages them to play on the surface of the furniture.

Extras (sold separately):

- doors,
- decorative boards,
- containers,
- shallow and deep wooden trays - 4 colours,
- shallow and deep cardboard trays - 4 colours,
- EKO shallow and deep cardboard trays.

For trays, only we recommend NS 0716 runners. The arrangements shown are only examples.

Thanks to their construction, cardboard trays hold a weight of up to 42 kgs, while remaining light and safe for children.

Cardboard and wooden trays, which come in various colours, are aesthetic and very durable. Their dimensions fit the Classical series.

chairs butterflies

Chair Butterfly. Light, colourful chairs made of plastic. The shape of the chair (flexible back, hole between the back and profiled seat) and the properties of the material help to improve child's posture and keep

the spine in proper position. The chair colour scheme changes every interior into a fairytale land. The chairs are easy to move and storage – they are stackable, which saves space.
